
SAMMY NDZELEN - CURRICULUM VITAE

PROFILE

Microsoft Business Intelligence Development and Consulting. Conceptualization and Development of SQL Server Data Warehousing. Microsoft Power BI - Visualization and Tabular Model. Azure Microsoft Cloud - Data Engineering.

PROFESSIONAL EXPERIENCE

Apr 2023 - Present

Microsoft Business Intelligence Consultant, GNAK Consulting GmbH

Project: Migration of an On-Premises Data Warehouse to the Azure Cloud & Establishment of a Reporting Layer in Power BI (Law Firm Görg)

Role: Data Engineer

- Migrated existing ETL pipelines to Azure (SSIS, Azure Data Factory) and built robust data pipelines from source systems to Power BI data models
- Reduced loading times for central reports by approximately 5 times through optimization of data models, queries, and incremental loads
- Lowered the error rate in the reporting process by around 30% through improved

data quality, monitoring, and automated validations

Methodology: Agile

Technologies/Tools: SSIS, SQL, Azure Data Factory, Azure Portal, Power BI, SharePoint, SSAS, Azure DevOps

Oct 2022 - Mar 2023

CRM Consultant, REWE Group

Industry: Retail

Project: Optimization of customer segmentation and data-driven campaigns

- Designed and implemented rule-based customer segments and contact sequences together with Marketing for targeted outreach to existing and new customers
- Doubled the speed of campaign setup through standardization of processes, templates, and KPI reports (Power BI, Tableau)
- Reduced process runtimes in the CRM environment by approximately 20% through automation of reports and optimization of data flows (Teradata/Snowflake, SQL, DAX, Power Query)

Methodology: Agile

Technologies/Tools: DAX Studio, Power BI, Power BI Report Builder, DAX, Power Query, Power BI Services, Stored Procedures, SSAS, Teradata SQL, Snowflake, Tableau, SAS

Mar 2021 - Sep 2022

Integration Architect, Volkswagen AG

Industry: Automotive

Project: Migration and integration of applications into the Group Retail Portal (GRP)

- Managed the integration of web and non-web applications into pre-live and production environments, including testing, error analysis, and documentation
- Halved the number of recurring integration errors through standardization of integration paths (SAML, OIDC, Proxy), clear guidelines, and improved handovers to operations and business units
- Provided 3rd-level support and trained GRP application teams on integration patterns to enable faster and more stable future integrations

Technologies/Tools: Git, GRP Tool, Webseal, SAML, OIDC, Proxy Integration

=====

Page 2 of 4

=====

Reporting Specialist, Deutsche Bank

Industry: Financial Services

Project: Reorganization of Compliance Reporting in the 2nd Line of Defense (2LoD)

- Analyzed reporting requirements from Compliance, designed new standard reports, and implemented them using SQL and Radar reporting tools
- Accelerated the provision of central compliance reports by approximately 30%

through automation of ETL pipelines (SSIS) and query optimization

- Coordinated an international project team and acted as an interface between IT, Compliance, and business units to ensure regulatory requirements were met

Methodology: Scrum

Technologies/Tools: SQL, Tableau, SSIS, SSAS, Azure DevOps, Visual Studio

Aug 2015 - May 2019

Data Scientist, Office Depot

Industry: Retail

Project: Identification of potential and at-risk customers for campaign management

- Developed and validated scoring models (linear/logistic regression, mixture models) to evaluate potential and at-risk customers based on transactional and behavioral data
- Increased the conversion rate of marketing campaigns by approximately 10-20% and revenue from potential customers by around 15% through more targeted segmentation and prioritization
- Reduced manual effort in sales by approximately 20% through data-driven selection and prioritization of customer lists

Methodologies/Tools: SQL, R, SAS (Base, MO), Tableau, Clustering, Segmentation, Hypothesis Testing

Apr 2014 - Jul 2014

Data Scientist (Internship), NRW.Bank

Industry: Financial Services

Project: Development of scoring models for real estate loans

- Designed and implemented an approach for automating credit limits based on logistic regression models
- Cleansed and analyzed credit data, identified relevant risk factors, and built scorecards to assess default probabilities

Methodologies/Tools: Logistic Regression, Model Selection, R

EDUCATION

Oct 2013 - Aug 2015

MSc in Statistics, Technical University of Dortmund

- Specializations: Machine Learning, Multivariate Statistics, Data Mining, Bayesian Statistics, Time Series Analysis

Aug 2012 - May 2013

Year Abroad, Montana State University, USA

- Relevant Courses: Data Engineering, Econometrics, Programming with Python

Oct 2007 - Feb 2012

BSc in Statistics (Degree Conferred), Technical University of Dortmund

- Specializations: Stochastics, Forecasting Models, Linear and Logistic Regression, Programming with R and SQL, Experimental Design

=====

MANAGEMENT SUMMARY

- Several years of experience in Data Engineering, Data Science, and Data Visualization
- Experience in the conceptualization, implementation, and provisioning of data storage solutions as well as the processing of streaming and batch data
- Experience in data transformation, implementation of security requirements, application of retention policies, identification of performance bottlenecks, and integration of external data sources to meet business requirements
- Experience in implementing and designing data solutions using the following Azure services: Azure Cosmos DB, Azure Synapse Analytics, Azure Data Lake Storage, Azure Data Factory, Azure Stream Analytics, Azure Databricks, Azure Blob Storage
- Comprehensive knowledge of Data Science methods, including creation and development of analytical and predictive models, descriptive data analysis, Machine Learning with Python, A/B Testing, Apache Spark in Python for Big Data, development of statistical models, CRM campaign optimization

- Experience with analytical tools such as SAS (including SAS Base, SAS Enterprise Miner, SAS MO) and Tableau
- Extensive experience in data visualization as well as the design and development of dashboards using Microsoft Power BI and Tableau
- Experience with programming languages such as Python, R, and SQL
- Strong analytical and solution-oriented thinking and action, high customer orientation, and excellent teamwork skills
- Industry Knowledge: Financial Services, Retail
- Excellent Language Skills: English, German, French

PERSONAL DATA

Name: Sammy Ndzelen

Year of Birth: 1985

Professional Experience: 10 years

Industry Knowledge: Microsoft

Employment Status: Actively Seeking

Location: Velbert, Mobile (remote or on-site 30%)

Availability: Immediately

COURSES & CERTIFICATIONS

Jun 2025 Microsoft Certified Fabric Data Engineer Associate

Dec 2023 Microsoft Certified Azure Data Engineer Associate

Aug 2023 Microsoft Certified Power BI Data Analyst Associate

Mar 2022 AWS Certified Data Analytics - Specialty

Jun 2020 Certified AWS Cloud Practitioner

Apr 2020 Celonis Certified Analyst
Apr 2020 Celonis Certified Data Engineer
Jun 2019 Tableau Certified Associate
Jun 2019 Professional Scrum Master / Product Owner (PSM I, PSPO I)
Apr 2019 The Ultimate Hands-On Hadoop - Tame Your Big Data
IBM Data Science Professional Certification
Mar 2019 Machine Learning And Deep Learning With Python
Dec 2018 Modeling Course In SAS Enterprise Miner

=====

Page 4 of 4

=====

2017 Basic Programming Course In SAS
Jun 2017 Macro Programming Course In SAS
Feb 2017 Tableau Desktop I And II Accelerated

LANGUAGES

=====

English: Fluent

German: Native Speaker

French: C2 (Proficient)

METHODS & COMPETENCIES

=====

Descriptive Analytics, Univariate and Multivariate Analysis, Predictive Modeling,

Linear and Logistic Regression, Classification, Hypothesis Testing, Customer Lifecycle Segmentations, Decision Trees, Random Forests, Recommendation Systems, Clustering, Statistical Methods, Machine Learning, Data Preparation and Analysis, A/B Testing, Campaign Optimization, Agile Project Management

TECHNICAL SKILLS

Visual Studio · SSIS · SSAS · DevOps · SSMS · MS SQL Server (2012-2019) · Azure · DAX Studio · SSRS · Power BI · Power BI Report Builder · JIRA · Power Platform · SharePoint · Jupyter Notebook · Python · R · MS Word · Excel
